Renae:

We have created two temporary satellite orphan container pad areas in Alpha Branch (Corpus to Point Comfort area) and we are working on one permanent location in Bravo Branch (Houston area). We plan to only store containers at the Alpha Branch location and we will process, transport and dispose of all collected items at the Bravo Branch location. We plan to store containers for less than 90 days in Alpha Branch. Do we need a temporary waiver or anything to store these items in Alpha Branch? Since we already have an EPA ID number issued from our Hurricane Ike response for the same location in our Bravo Branch, do we need to do anything else? I attached the agreement for the Bravo Branch location we used during Hurricane Ike. I know the number was temporary.....so do we need to apply for another one? Please let us know so we can follow the correct process. Thanks-

Alpha Branch satellite locations:

Bravo Branch main receiving/processing location:
